### Big Cypress Lodge - Memphis, TN

There are so many things about Big Cypress Lodge to marvel at. First, the hotel is located inside the largest US replica of a pyramid (as in Egypt), on the banks of the mighty Mississippi. Second, the main floor of the pyramid is the largest Bass Pro Shop—specializing in all things, well, outdoors—in the world. Why is that unique? Because they’ve recreated outdoor habitats so shoppers get the sense of things. Finally, the Governor’s Suite is an adjoining room set-up that overlooks the Cypress Swamp on the ground level of the pyramid. The room itself is decorated like a hunters lodge, but the view of the fish, gators, and stuffed grizzlies below makes this one a solid bet for your outdoor adventure types.
