Fishbowl at the Pyramid

The Fishbowl is designed to give the illusion of being underwater, exploring the skeletal remains of a sunken ship. The ceiling is adorned with a battered, barnacle and coral-encrusted wooden hull. A host of exotic fish swim in and around the wreckage while fish and sharks, suspended from the ceiling, appear to swim overhead. The bar features an expansive saltwater aquarium with scores of beautiful, tropical fish and live sporting events on the surrounding TVs. For family-friendly fun and entertainment, thirteen lanes of bowling with custom bowling balls bearing the likenesses of sea critters and “dock” wooden lanes that feature underwater scenery all contribute to an unforgettable experience. The Fishbowl offers a small menu of casual dining options such as pizza, wings and nachos, as well as breakfast served daily in the Wahlburgers Wild dining room. Private event space is available for group rentals.

FISHBOWL AT THE PYRAMID

Elegant and comfortable spaces include oversized upholstered sofas and chairs with tables, high-top tables with modern pendant spheres that glow beneath awnings, striking circular tables that surround cozy fire pits, and dining tables with sun umbrellas. A copper-top destination bar offers additional seating with a stage available for a DJ or live music. Hanging market lights, mood-inducing blue uplighting and beautiful landscaped plants, flowers and trees in wooden planters tie the meandering spaces together.
